

AREAS FOR FURTHER DEVELOPMENT

T LEVEL: EDUCATION AND CHILDCARE

T Level learners will have covered a broad spectrum of knowledge and understanding of the concepts, theories and principles relevant to the T level in the core content. They will then specialise and cover the knowledge and skills required in that occupational specialism, putting this into practise during the industry placement. There may be some areas a learner will need to further develop in a workplace environment following a T Level to reach full competence, such as behaviours. Following engagement with employers, industry experts and providers, we have captured below what these areas for development may be following a T Level. This will depend on the learner and an initial assessment. The RPL guidance gives further details.

Occupational Specialism: Assisting teaching **Standard: Teaching Assistant**

Aspects for further development

Additional Learning

Further practical application in the workplace, in particular:

S13 Undertake safeguarding training every 3 years.

Behaviours.
